

The Department of Chemistry and Biochemistry supports the buyback program of FR lab coats from Chemistry undergraduates. The department purchases FR lab coats and then in turn offers the FR lab coats at a reduced price of \$25.00. Our stock currently consists of sizes small to 2XL.

### **Cleaning**

Twice per year, free of charge, members of the Chemistry and Biochemistry Department may have their lab coats sent to St. Michael's laundry. Lab coats may be left in the stockroom no later than 9:00 am Tuesdays for pick up by St. Michael's. The coats may then be picked up in the stockroom after 3:00 pm the following Thursday afternoon.

Lab coats may be sent to St. Michael's Laundry via the stockroom as many times per year as desired; however, the Chemistry Department will only pay for two cleanings per lab per year. Any additional washings will be charged to the individual labs.

A laundry bag bearing a stencil with the lab name may be requested. Please submit all requests to the stockroom, [dverleye@nd.edu](mailto:dverleye@nd.edu) or 574-631-7841.

### **Cost**

As of 3/30/2020, the cost for the cleaning of one coat is \$4.39.

### **Questions**

Please direct any questions concerning FR lab coats to Dawn, 574-631-7841 or [dverleye@nd.edu](mailto:dverleye@nd.edu)
